## Natural Gas Engines for Generator

115~451kW

### Outstanding Performance

HYUNDAI Natural Gas Engines, based on HYUNDAI's diesel engines present high performance even under harsh conditions thanks to proven heavy-duty and advanced fuel system-electric controlled air-gas mixture throttling and ignition system.

### Updated Emissions Compliances

HYUNDAI Natural Gas Engines can meet the stringent US EPA and CARB regulations.

### Beneficial Fuel Efficiency

Optimized fuel combustion enables the excellent fuel economy that customers can benefit from.

### Easy Installation

HYUNDAI Natural Gas Engines deliver an easy installation thanks to Gen-Pack type (radiator, inter cooler, bed frame integrated with engine) and standard Flywheel and Housing. HYUNDAI's Gen-pack minimizes the design changes for installation which able to avoid cost and space impacts.
